

DCBL//MoEF/EC-HYC/2022-23/202

Date: 27.05.2023

To,

The Regional Director  
Ministry of Environment, Forest & Climate Change  
Regional Office (South Zone),  
Kendriya Sadan, 4<sup>th</sup> Floor,  
E & F wing, 17<sup>th</sup> Main Road,  
II Block, Koramangala,  
Bengaluru – 560034.

**Sub:** Submission of DCBL Six Monthly Compliance Report of Cement Plant– Reg.

**Ref:** F.No.J-11011/119/2007 - IA II (I) Dated. 24<sup>th</sup> June 2008 and 11<sup>th</sup> August 2014.

Dear Sir,

With Reference to the subject cited, vide reference mentioned above, we herewith submitting Six Monthly Environment Clearance compliance reports of M/s. Dalmia Cement (Bharat) Limited (Cement Plant), Yadwad Village, Mudalagi Taluk, Belgaum District, Karnataka, for the period of Oct 2022 to Mar 2023.

Kindly request to acknowledge the same.

Yours faithfully

For M/s. Dalmia Cement (Bharat) Limited.

Authorised Signatory

-  Cc: 1. The Environmental Officer, Karnataka State Pollution Control Board, Plot No.3224/3, Hanuman Nivas, First Floor, B.K. Collage Road, Chikkodi-591201.  
2. The Member Secretary, Karnataka State Pollution Control Board, Parisara Bhavana, 1<sup>st</sup> to 5<sup>th</sup> Floor, #49, Chruch street, Bengaluru-560001.  
3. Regional Officer, Central Pollution Control Board, Nisarga Bhavan, Thimmaiah Road, 7th D Main Rd, Shivanagar, Bengaluru, Karnataka - 560079.

### Dalmia Cement (Bharat) Limited

RS No. 394, Yadwad (Village), Mudalagi (Taluk), Belagavi (District), Karnataka - 591136, India.

Registered office : Dalimapuram, Dist. Tiruchirapalli - 621 651, Tamil Nadu, India.

A Dalmia Bharat Group company, [www.dalmiabharat.com](http://www.dalmiabharat.com)

# **Half Yearly Compliance Report**

On  
**Environmental Clearance**

October, 2022 to March, 2023

## **Dalmia Cement (Bharat) Limited**

(An ISO 14001, 18001, 9001 and 50001 Certified Company)

Yadwad village ,  
Gokak Taluk,  
Belagavi District ,  
Karnataka, - 591136

### **Production Capacity:**

Cement : 4.0 MTPA,  
Clinker : 2.6 MTPA and  
Captive Power Plant : 40 MW

### PROJECT PROFILE

1	Project type	Industry (I) - Cement and Captive Power Plant
2	Name of the project	Cement Plant (4.0 MTPA), Clinker (2.60 MTPA), and Captive Power Plant (40MW) at Yadwad, Gokak, Belgaum, Karnataka by Dalmia Cement (Bharat) Ltd.
3	Clearance letter No.& date	MoEF&CC. EC: F. No. J-11011/119/2007-IA II(I), Dated: 24 <sup>th</sup> June 2008.
4	Location: District & State / UT	RS No. 394, Yadwad Village, Mudalagi Taluk, Belagavi District, KARNATAKA -591136
5	Address for correspondence:	M/s Dalmia Cement (Bharat) Limited, RS No. 394, Yadwad Village, Mudalagi Taluk, Belagavi District, KARNATAKA -591136 Phone: +918334 4292271 Fax No: +91 40 - 30006955 Web: <a href="http://www.dalmiacement.com">www.dalmiacement.com</a>
6	Financial Details:	
a	Project cost as originally planned and subsequent revised estimates and the years of price reference	1500.00 Crores
b	Allocations made for environmental management plans, with item breakup	<p><b>Approximate Cost (INR):</b></p> <ol style="list-style-type: none"> <li>1. Online Continuous Ambient Air Quality Monitoring Machine: 35,25,815</li> <li>2. Online Continuous Emission Monitoring System: 26,38,498</li> <li>3. Installation of Air pollution control equipment like Bag filters, Bag House and ESP: 3,24,62,546</li> <li>4. Installation of closed conveyor system: 5,18,51,062</li> <li>5. Construction of closed sheds for Raw material storage: 37,49,90,000</li> <li>6. Construction of Internal Roads: 7,00,00,000</li> <li>7. Green belt development: 1,20,00,000</li> <li>8. Environmental Monitoring: 44,00,000</li> <li>9. Construction of Rain Water Harvesting Lake: 65,40,000</li> <li>10. Construction of Rain Water Harvesting Pond: 26,32,000</li> </ol> <p>Total Cost: 561,039,921</p>

c	Total expenditure on the Project so far	1600.00 Crores
d	Planned and Actual expenditure incurred on the environmental management plans so far	<ul style="list-style-type: none"> <li>❖ Planned expenditure on Environmental management system:31.05 Cr</li> <li>❖ Actual expenditure on Environmental management system:56.10 Cr</li> </ul>
7.	Status of construction:	Completed
a.	Date of commencement	1 <sup>st</sup> October 2012
b.	Date of completion (actual and/or planned)	25 <sup>th</sup> March 2015 – Cement Production
a.	Date of site visit of Director-MOEF&CC/CPCB Officials	CPCB official visit : 12 <sup>th</sup> and 13 <sup>th</sup> February 2019

S.No	Conditions	Compliance Status
A.	<b>Specific Conditions</b>	
i.	<p>Continuous stack monitoring facilities to monitor gaseous emissions from all the stacks shall be provided and limit of particulate matters shall be controlled within 50 mg/Nm<sup>3</sup> by installing adequate air pollution control system. Electrostatic precipitator (ESP) to clinker cooler and captive power plant, bag house to raw mill / kiln and cement mill shall be provided to control air emissions within 50 mg/Nm<sup>3</sup> and reports submitted to the Ministry's Regional Office at Bangalore, Central Pollution Control Board (CPCB) and Karnataka Pollution Control Board (KPCB).</p>	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>Online Continuous Emission monitoring systems (OCEMS) for gaseous emissions from all the stacks at Cement plant &amp; CPP are provided and connected to CPCB server.</li> <li>The Copy of CEMS report is attached as <b>Annexure 1</b></li> <li>High Efficiency of Electrostatic Precipitators has been installed for clinker cooler and Captive Power Plant, Bag house has been provided in raw mill/ Kiln, coal mill and cement mill to maintain the emission well within stipulated limit.</li> <li>Copy of statistical analysis of third party monitoring reports is attached as <b>Annexure 2</b>.</li> </ul>
ii.	<p>Secondary fugitive emissions shall be controlled within the prescribed limits and regularly monitored. Guidelines / Code of Practice issued by the CPCB in this regard shall be followed.</p> <p>Bag filters with ventilation system shall be provided to coal mill, all the raw material handling areas, clinker, cement &amp; fly ash silos, clinker hoppers etc. to control fugitive emissions from the material handling areas.</p> <p>Closed clinker stockpile system shall be adopted and bag filters shall be provided to clinker hoppers.</p> <p>Water sprinkling arrangements shall be made in the material stockyards and cement bags loading areas.</p> <p>To eliminate fugitive emissions, transportation of the ash to the cement plant shall be in closed containers and pneumatic transfer of the ash into ash silos in cement plant.</p>	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>Bag filters had been installed in all emission sources.</li> <li>Bag house for Coal Mill, Raw mill and ESP for clinker cooler is already installed.</li> <li>Closed clinker stockpile system implemented with bag filter.</li> <li>Water sprinkling arrangements made as per the conditions laid. Presently fugitive emissions controlled by dust suppression system through water tankers.</li> <li>In addition to this, to eliminate fugitive emissions, transportation of the ash to the cement plant done in encapsulated fly ash Bulker only and the ash transfer to ash silos are being carried out pneumatically.</li> <li>All conveyors are covered.</li> <li>The fugitive emissions are within the CPCB standards.</li> <li>Third party monitoring report of Fugitive emissions is enclosed as <b>Annexure 3</b></li> </ul>
iii.	Efforts shall be made to reduce impact of the transport of the raw materials and end products on the surrounding environment	Being Complied.

	<p>including agricultural land.</p> <p>Wagon and truck tipplers for unloading and transportation shall be covered with tarpaulin. Internal roads shall be asphalted and sprinkled with water regularly.</p>	<p>Following efforts have been made to reduce the impact of transportation on surrounding environment including agricultural land:</p> <ul style="list-style-type: none"> <li>• The transportation of the raw materials and products are done through covered vehicles and overloading of materials are not allowed.</li> <li>• All the trucks are parked at concreted parking area.</li> <li>• Fully covered conveyor system implemented for transportation of crushed limestone, coal and gypsum within the cement plant.</li> <li>• Closed Raw material, Additive and coal storage yard provided to prevent airborne fugitive dust emission in the surrounding environment.</li> <li>• Covered tarpaulin system implemented at truck tipplers for unloading.</li> <li>• Internal roads are made of RCC.</li> <li>• Water tankers are deployed for sprinkling of water at regular intervals on the internal roads, parking area and unloading areas.</li> <li>• Rod sweeping machines are deployed for regular sweeping of road, parking area and unloading area.</li> <li>• Thick plantation has been done along the road.</li> </ul>
iv.	<p>As proposed, total water requirement from Ghataprabha River shall not exceed 3,100 m<sup>3</sup>/day. No water shall be drawn from Dodahalla nallah. Captive Power Plant shall be provided with air-cooled condensers to reduce the water intake. The process effluent from captive power plant (CPP) shall be treated in effluent treatment plant (ETP) and treated waste water shall be recycled and reused in the cement manufacturing process and/or for dust suppression, green belt development and other plant related activities etc. No process waste water shall be discharged outside the factory premises and 'zero' discharge shall be adopted.</p>	<p>As mentioned in EC that total water requirement is 3100 m<sup>3</sup>/day.</p> <p>Due to design constraint of equipment and low production of plant, existing water usage is 1490 m<sup>3</sup>/day and remaining water requirement will be Considered in expansion of Plant.</p> <p>As Work of jack, well construction and pipeline implementation could not be completed.</p> <p>Meanwhile, to meet out plant's water requirement, DCBL developed 2 No.'s rainwater harvesting pits. Rain water was not sufficient to meet out the water demand, therefore to secure our demand of water, we also obtained permission from Karnataka Ground Water Authority for withdrawal of ground water vide</p>

		<p>letter no. DE0011198953705 dated 11.01.2022. DCBL informed MoEF&amp;CC regarding the same <b>vide letter dated 04.01.2013.</b></p> <ul style="list-style-type: none"> <li>• Captive Power Plant has been provided with air-cooled condensers to reduce the water consumption.</li> <li>• The process effluent from captive power plant (CPP) is being treated in ETP and treated wastewater is recycled back to the system.</li> <li>• No process waste water is discharged outside the factory premises and Zero discharge is adopted.</li> </ul>
v.	'Permission' for the drawl of 3,100 m <sup>3</sup> /day from River Ghataprabha shall be obtained from concerned Department. Captive Power Plant shall be provided with air-cooled condensers to reduce the water intake.	<p>DCBL Belagavi has obtained Permission for withdrawal of 3148 KLD water from Ghatprabha River (as mentioned in granted EC) from Water Resource Department, Government of Karnataka for existing plant. Work of jack well construction and pipeline implementation could not be completed. Meanwhile, to meet out plant's water requirement, DCBL developed 2 rain water harvesting pits. Rain water was not sufficient to meet out the water demand, therefore to secure our demand of water, we also obtained permission from Karnataka Ground Water Authority for withdrawal of ground water. DCBL informed MoEF&amp;CC regarding the same and requested to consider ground water as an additional source of water <b>vide letter dated 04.01.2013.</b></p> <p>But now company is proposing expansion in Existing Cement Plant for which additional water will be required. It is proposed to use water from Ghatprabha River in addition to ground water and rain water harvesting. Accordingly, renewal of permission for withdrawal of 3148 KLD water from Ghataprabha river has been obtained <b>vide order no. WRD/18/NIN/2022, Valid till 05.02.2024.</b></p> <p>Permission obtained from Karnataka Ground Water Authority for withdrawal of ground water vide letter no. DE0011198953705 dated 11.01.2022.</p> <p>The Captive power plant is provided with air-cooled condensers to minimize the water intake.</p>
vi	All the fly ash shall be utilized as per Fly ash Notification, 1999 subsequently as amended in 2003.	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• All the Fly ash generated from our CPP has been utilized in cement manufacturing</li> </ul>

		process.
vii	Efforts shall be made to use fly ash generated from the power plant maximum in making Pozzolana Portland Cement (PPC). Bed ash shall be collected in ash cooler hoppers and then conveyed to a bed ash storage silo for further use as boiler bed material.	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>Fly ash from CPP is being utilized in the cement manufacturing process. Bed ash is being collected in ash cooler and then conveyed to bed ash storage silo for further use as boiler bed material.</li> </ul>
viii	All the dust collected from pollution control devices shall be recycled and reused in the process and used for cement manufacturing. Refractory bricks having high recycling values shall be sold to outside agencies or disposed off in environment-friendly manner. Domestic solid waste i.e. sludge shall be composted and used as organic manure for the green belt development within the plant and colony area. Used oil and scrapped automobile batteries shall be sold to authorized recyclers/ re-processors only.	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>All the Dust collected from pollution control equipment's are being reused in the process and for cement manufacturing.</li> <li>Refractory bricks shall be sold out to outside agencies and in the event of disposal all environment protection measures shall be taken to avoid any pollution.</li> <li>Domestic solid waste is used organic manure for green belt development.</li> <li>Used oil are being stored separately in covered leak proof containers on concrete floor and are being co-processed in kiln.</li> <li>Used batteries are being sold to authorized recyclers / re-processors or buyback through registered vendor only.</li> </ul>
ix	An effort shall be made to use of high calorific hazardous waste viz. municipal solid waste, solvents, spent oil, agro waste, sludge from DG sets and used tyres etc. in the cement kiln and necessary provision shall be made accordingly.	<ul style="list-style-type: none"> <li>The high calorific value hazardous wastes are being used in kiln as fuel based on availability and feasibility.</li> <li>We have authorization from KSPCB for co-processing of hazardous and other waste.</li> <li>Efforts are being made to explore the possibility of increasing the usage of Hazardous Waste.</li> </ul>
x.	Efforts shall be made to use low grade lime, more fly ash and solid waste in the cement manufacturing.	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>Fly ash is being used in the manufacturing process of cement. Efforts are being made as a continuous process to utilize low grade limestone to the optimum level.</li> </ul>
xi.	As proposed in EIA/EMP, out of total 120 ha., green belt shall be developed in 40 ha (33 %) in and around the plant as per the CPCB guidelines to mitigate the effects of air emissions in consultation with local DFO.	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>Since commencement of project work, massive plantation program is undertaken.</li> <li>Nurturing and watering of the plantation made is being carried out on continuous basis to sustain the survival rate of the green belt. Photographs are attached as Annexure-4</li> </ul>

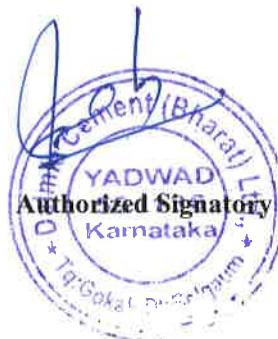

xii.	Prior environmental clearance from the Ministry of Environment & Forests for the Captive (Yadwad) limestone mine shall be obtained.	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• Obtained EC from Ministry of Environment &amp; Forest F.No.J-11015/36/2009- IA.II (M), Dated 13 march 2015.</li> </ul>
xii.	All recommendations made in the Corporate Responsibility for Environment Protection (CREP) for cement plants shall be implemented.	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• All recommendations made by CREP for Cement Plants are implemented.</li> </ul>
<b>B GENERAL CONDITIONS</b>		
i.	The project authority shall adhere to the stipulations made by Karnataka Pollution Control Board (KPCB) and State Government.	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• All the conditions made or laid down by KSPCB in CFO and subsequent directions as well as conditions laid by State Government shall be adhered.</li> </ul>
ii.	No further expansion or modification of the plant shall be carried out without prior approval of this Ministry	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• No modification carried out since commissioning. Any modification or expansion shall be carried out with prior approval from the Ministry.</li> </ul>
iii.	The gaseous and particulate matter emissions from various units shall conform to the standards prescribed by the Karnataka Pollution Control Board. At no time, the particulate emissions from the cement plant shall exceed KPCB limit. Interlocking facility shall be provided in the pollution control equipment so that in the event of the pollution control equipment not working, the respective unit(s) is shut down automatically	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• Interlocking facility had been provided to pollution Control Equipment's. So that in the event of the pollution control equipment not working properly the respective unit(s) will shut down automatically.</li> <li>• Report on stack emissions confirming to KSPCB standards is attached as <b>Annexure1 &amp; 2</b></li> </ul>
iv.	One ambient air quality monitoring station shall be installed in downwind direction. Ambient air quality including ambient noise levels shall not exceed the standards stipulated under EPA or by the State authorities. Monitoring of ambient air quality and stack emissions shall be carried out regularly in consultation with KSPCB and report submitted to the KPCB quarterly and to the Ministry's Regional Office at Bangalore half-yearly	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• One online Ambient Air Quality monitoring station installed in the downwind direction. Copy of Online AAQM data (day Average) is attached as <b>Annexure 5</b></li> <li>• Online Continuous Stack Emission Monitoring System (OCEMS) is also installed in all the stacks including CPP stack. The data has been uploaded in CPCB server continuously.</li> </ul>

		<ul style="list-style-type: none"> <li>• All the Emission levels were maintained within standards stipulated by the board.</li> <li>• A Third party agency approved by MoEF &amp;CC, M/s Cosmo Conscious Research Laboratory is also engaged for manual monitoring of Air, Water, soil and Noise and monitoring is being carried out continuously.</li> <li>• Copy of statistical analysis of third party monitoring report on Ambient Air Quality, Stack emissions and Online Ambient Air Quality data is enclosed as <b>Annexure 6</b></li> <li>• Half yearly report are being submitted to Ministry's Regional Office at Bangalore .</li> </ul>
v.	The company shall install adequate dust collection and extraction system to control fugitive dust emissions at various transfer points, raw mill handling (unloading, conveying, transporting, stacking), vehicular movement, bagging and packing areas etc. Asphalting/concreting of roads and water spray all around the stockyard and loading / unloading areas shall be carried out to control fugitive emissions. Covered sheds for storage of raw materials and fully covered conveyors for transportation of materials shall be provided besides coal, cement, fly ash and clinker shall be stored in silos	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• Adequate dust collection and extraction systems implemented at various transfer points, raw mill handling (unloading, conveying, transporting, stacking) etc.</li> <li>• Bag filters had been installed at all emission sources.</li> <li>• Above 9 km Internal RCC roads developed to control fugitive emissions.</li> <li>• covered sheds for storage of raw materials and coal.</li> <li>• Fully covered conveyor system implemented for transportation of crushed limestone, coal and gypsum within the cement plant.</li> <li>• RCC Silos for clinker storage Cement and fly ash.</li> </ul>
vi	The company shall harvest the rainwater from the rooftops and storm water drains to recharge the ground water and use the same water for the various activities of the project to conserve fresh water	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• Nearly 1, 89,000 KL capacity rain water harvesting pond developed with catch drains to collect all the surface runoff during monsoon is developed to conserve water.</li> <li>• The location map of Rain Water Harvesting pond is enclosed as <b>Annexure 7</b></li> </ul>
vii	The company shall undertake Eco-development measures including community welfare measures in the project area	<p>Being Complied .</p> <ul style="list-style-type: none"> <li>• Maximum efforts are being undertaken Eco development measures.</li> <li>• Some of the following measures are being implemented as a continuous development at surrounding villages <ul style="list-style-type: none"> <li>○ Livelihood and Skill building Programs</li> <li>○ Health care camps</li> <li>○ Water Infrastructure facilities</li> <li>○ Education</li> </ul> </li> </ul>

		<ul style="list-style-type: none"> <li><input type="radio"/> ODF village</li> <li><input type="radio"/> Community hall development etc.</li> <li>• Report on Eco development and community development measures is attached as <b>Annexure 8</b></li> </ul>
--	--	---

viii	The overall noise levels in and around the plant area shall be kept well within the standards (85 dBA) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels shall conform to the standards prescribed under Environmental (Protection) Act, 1986 Rules, 1989 viz. 75 dBA (day time) and 70 dBA (night time)	<ul style="list-style-type: none"> <li>• Overall noise levels in and around the plant area are being maintained within the standards prescribed by Board.</li> <li>• Noise monitoring is being carried out by Third party agency on regular basis and the reports confirming to the standards.</li> <li>• The report on Noise monitoring is attached as <b>Annexure 9</b></li> </ul>
ix.	Proper housekeeping and adequate occupational health programmes shall be taken up.	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• Continuous Sweeping Machine has been deployed to maintain proper housekeeping with in plant premises.</li> <li>• Pre-employment medical check-up has been undertaken for all employees. First aid facility is provided at OHC centre inside the factory premises with 24 hrs ambulance availability.</li> <li>• Health awareness programme and special first aid training are being provided on continuous basis. Enclosed as <b>Annexure 10</b></li> </ul>
x.	A separate environmental management cell to carry out various management and monitoring functions shall be set up under the control of Senior Executive	<p>Being Complied.</p> <ul style="list-style-type: none"> <li>• A dedicated Environment Management Cell institutionalized with Environment officer under the control of Senior Executive to carry out various management and monitoring functions.</li> </ul>
xi.	As proposed in EIA/EMP, Rs. 31.05 Crores and Rs. 4.28 Crores earmarked towards capital cost and recurring cost/annum respectively for the environmental pollution control measures shall be suitable used to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government. The funds so provided shall not be diverted for any other purpose.	<ul style="list-style-type: none"> <li>• The funds so provided are exclusively for the implementation of the Environment Management Plan.</li> <li>• Recurring cost incurred to control the pollution control equipment for the FY 2022-23 is 4.59 crores Enclosed as <b>Annexure-11</b></li> <li>• we have incurred an expenditure of about 56.10 Cr. for Bag house in cement mill, Raw Mill, Coal Mill and ESP of clinker cooler and implementation of EMP as well as for green belt development.</li> </ul>

xii	The Regional Office of this Ministry at Bangalore / CPCB / KPCB shall monitor the stipulated conditions. A six monthly compliance report and the monitored data along with statistical interpretation shall be submitted to them regularly	Being Complied. <ul style="list-style-type: none"> <li>The monitoring activities are being carried out regularly. Six months compliance report and the monitored data along with statistical interpretation submitted to RO Bangalore, CPCB/KPCB regularly.</li> </ul>
xiii	The Project Authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of commencing the land development work.	Being Complied. <ul style="list-style-type: none"> <li>Date of Financial Closure: 31<sup>st</sup> March 2016.</li> <li>Date of commencement of land development work: 1<sup>st</sup> October 2012.</li> </ul>
xiv	The Project Proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the Karnataka Pollution Control Board and may also be seen at Website of the Ministry of Environment and Forests at <a href="http://envfor.nic.in">http://envfor.nic.in</a> . This should be advertised within seven days from the date of issue of the clearance letter at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the Regional office at Bangalore.	Being Complied. <ul style="list-style-type: none"> <li>It was advertised in Deccan Herald in English and Prajavani in Kannada and copies of same sent with previous compliance Report. A copy of the same forwarded to the Ministry's Regional Office at Bangalore.</li> </ul>

# Awareness session on Nutrition to pregnant women and children at Anganwadi in Yadwad village.

## National nutrition week-shop floor employees

An awareness session was conducted for shop floor employees on consumption of economical, locally available food stuff and about balanced diet.

# National nutrition week-shop floor employees

A Free Holistic Health camp was conducted in Yadwad village in which specialist doctors from Allopathy like Surgeon, ENT, Ophthalmologist, Gynaecologist, Ayurvedic, Homeopathic and Naturopathy doctors were present. More than 200 villagers got benefitted by this camp.

# World Hand Washing Day celebration.

An awareness session was conducted for shopfloor employees 6 steps of Hand washing. As most of the diseases which spreads through feco-oral route can be prevented by proper hand washing before food consumption and after using the wash room

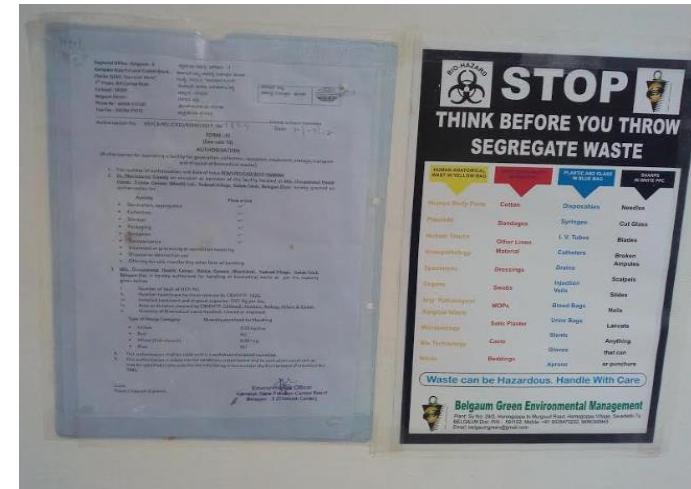

## Capacity building for paramedical staff.

Our OHC staff nurse and ambulance drivers were given training on managing emergencies like HEAD INJURY, SPINE INJURY, BIOMEDICAL WASTE HANDLING.

# Biomedical waste as per KSPCB norms

- We are disposing biomedical waste as per KSPCB guidelines in which we have tied up with a common treatment facility who will collect our BMW and incinerate in their plant.
- We are submitting annual report to KSPCB regarding disposal.
- We have obtained lifetime authorization from KSPCB for generation, collection of BMW.

# Annual Health check up for O&M associates.

# Calibration of Medical Equipments

Annually we are calibrating our medical equipments through a NABL, ISO accredited laboratory to ensure that the equipments are functioning accurately.
