Sub: Disclosure under Regulations 30 and 47 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations”)- Newspaper Advertisement Financial Results

Dear Sir/Madam,

Pursuant to Regulations 30 and 47 of Listing Regulations, we enclose herewith copy of newspaper publication of un-audited financial results of the Company for the quarter & half year ended September 30, 2024, published in Financial Express (English-all editions-National) and Dinamani (Tamil-all editions), today i.e. on October 21, 2024.

The same has been made available on the Company’s website at www.dalmiabharat.com.

You are requested to take the same on record.

Thanking you,

Your Sincerely,
For Dalmia Bharat Limited

Rajeev Kumar
Company Secretary

INDIA AIMS TO ACHIEVE 500 GW OF GREEN ENERGY BY 2030

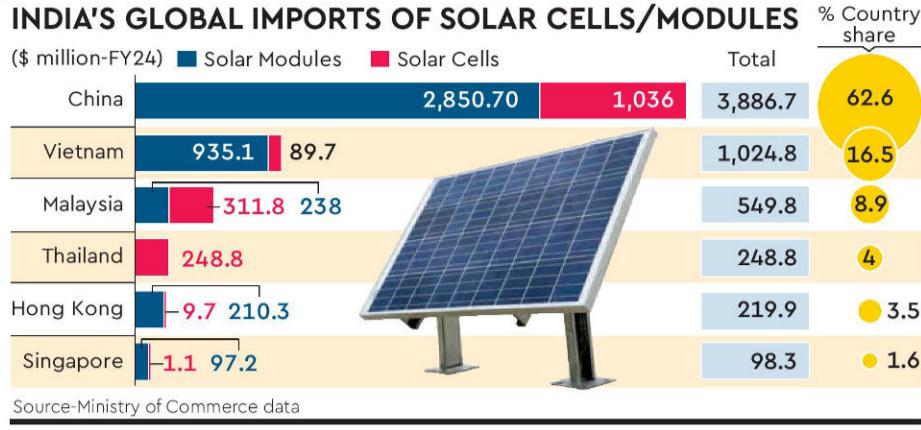

Solar imports to touch \$30-bn per yr

MUKESH JAGOTA
New Delhi, October 20

INDIA'S RENEWABLE ENERGY (RE) ambitions could drive the country's annual solar import bill up to \$30 billion from the current \$7 billion, with most imports coming from China, according to a report by the Global Trade Research Initiative (GTRI). As the world works towards decarbonisation, key countries need to collaborate to develop large-scale solar manufacturing facilities, the report suggests.

To achieve its goal of 500 GW of renewable energy by 2030, India needs to add 65 to 70 GW of capacity each year. This is an ambitious target, given that India added only 15 GW of solar capacity in 2023-24, while the US plans to add 32 GW in 2024.

Last financial year, India imported \$7 billion worth of solar equipment, with China supplying 62.6% of it. China controls 97% of the global polysilicon supply and 80% of

solar module manufacturing, making it difficult for other countries to compete with China's lower prices. This dominance has resulted in an oversupplied market, which puts pressure on local manufacturing efforts in countries like India and the US.

"The US, India, EU and Japan may unite to establish global-scale solar-cell manufacturing facilities. While it may be costly initially, it is essential to break

free from China's dominance," said Ajay Srivastava, co-founder of GTRI and author of the report 'Global Solar Industry in China's Iron Grip.'

Although initiatives like the Production Linked Incentive (PLI) scheme aim to boost local manufacturing in India, their impact is limited due to a reliance on imported inputs.

Around 90% of India's solar manufacturing involves assembling solar modules from

imported solar cells, adding only about 15% value locally. Few Indian companies produce solar cells at a commercial scale using imported polysilicon or wafers, which contributes 30-40% local value addition.

Developing a self-reliant solar manufacturing industry in India will require significant investment to build an integrated supply chain, especially in areas like polysilicon and wafer production. Without

these capabilities, India may continue to face high import costs and struggle to meet its renewable energy targets.

For India to produce solar cells from the ground up, it must start with silicon refining, a process that involves costly and energy-intensive polysilicon production, requiring advanced technology.

This challenge is not unique to India. The US, EU and many other countries also rely on direct and indirect imports from China. In an effort to reduce dependency on Chinese imports, India has imposed a 40% duty on solar equipment imports. However, imports from Vietnam, Malaysia, and Thailand are exempt under the India-ASEAN Free Trade Agreement, provided they have 35% local value addition.

While the EU continues to import finished solar modules, India and the US are making efforts to develop local manufacturing capacity. However, local value addition remains low at around 15%.

Govt likely to raise posts of chief general managers in PSU banks

PRESS TRUST OF INDIA
New Delhi, October 20

As per existing guidelines, there can be one chief general manager for four general managers in a public sector bank

THE FINANCE MINISTRY is considering a proposal to raise the posts of chief general managers in public sector banks in view of their increasing business and profitability.

As per existing government guidelines, there can be one chief general manager (CGM) for four general managers in a public sector bank (PSB).

These guidelines were issued in 2019 and since then there has been marked improvement in performance of PSBs despite the pandemic, sources said.

Business of PSBs have witnessed significant growth and consequently they booked

record profit, sources said, adding the department of financial services under the finance ministry is reviewing CGM positions for achieving the next level of growth by PSBs.

The decision to relax the guidelines would be taken after thorough examination and

considering the need for furthering their business expansion, sources said.

The CGM post was created in 2019, after the merger of 10 nationalised banks to four large lenders. CGMs act as an administrative and functional layer between the general manager and the executive director.

UCO Bank recovers ₹414 crore bad loans

UCO BANK HAS recovered ₹414 crore from 26 accounts through the NCIT mechanism during the second quarter of the current fiscal, an official said on Sunday. Of the recovered amount, ₹393 crore came from 14 accounts resolved, and ₹21 crore from 12 under liquidation, he said.

"During the July-Sept quarter, ₹414 crore was recovered from resolution and liquidation combined. Recovery through the resolution process during the period was ₹393 crore, higher than the year-ago figure of ₹82 crore and the June quarter's ₹34 crore," a senior official said.

Exchanges to conduct Diwali Muhurat trading on Nov 1

FE BUREAU
Mumbai, October 20

THE NATIONAL STOCK Exchange (NSE) and BSE will hold their annual Diwali Muhurat trading session on Friday, November 1, from 6 pm to 7 pm, marking the exchanges said in separate circulars on Saturday.

While the stock market will be closed for trading on Diwali, the special one-hour Muhurat trading session will be open in the evening. A pre-opening session will be conducted from 5:45 pm-6 pm, the exchanges said in separate circulars on Saturday.

Muhurat session coincides

with Laxmi Puja, which celebrates wealth and prosperity. Investors trade in this session to welcome good fortune and mark the beginning of Samvat 2081.

Historically, investors have seen positive returns, with the BSE Sensex closing higher in 13 of the last 17 special sessions.
